

Guide to customize bottles by Digital direct printing

Bottles customization by Digital direct printing

With this guide we intend to show you all the possibilities offered by our bottles customization by Digital direct printing system, so that you can place your order easily and comfortably.

Bottles customization by Digital direct printing

When do we use Digital direct printing to customize bottles?

- The great advantage of this printing system is that it allows us to personalise all our bottle models, in all colours and with any type of design.

Which bottle types can I choose from?

Tritán

- Very light
- Resistant

100% recycled aluminium

- Very light
- 100% Recycled

Basic Steel

- Very light
- Resistant

Insulated Steel

- Keep cold and warm
- Do not burn
- Do not sweat
- Resistant

No harmful substances

Do not leave smell or flavour

Reusable and recyclable

Tight closure

To better choose your bottle:

- As we have already mentioned, this printing system allows us to personalise practically any of our bottles
 - Which is why we recommend that you visit our website, where you will find detailed information on all our models, www.laken.es
- For your convenience, we also enclose our digital catalogue, where you will also find detailed information on all our models.

How to adapt the design of your bottle?

- Once you have chosen your bottle, adapt the design to the size of the corresponding template (you will find the templates in the attached document "Direct impresion templates").
- Once the design has been adapted to the template, send it to us with the highest possible quality in a jpg, pdf or illustrator file.

How to place an order?

- Send us the design adapted to the template of the chosen model.
- Remember to specify the quantity of bottles you need.
- Once we receive your order, we will send you a quote according to the options you have chosen. When you confirm this estimate, we will send you an invoice so that you can make the payment and we will start producing your bottles.

How much will your bottles cost?

The price of the bottles depends on the model chosen as well as the quantity of the order. That's why we offer you a budget adjusted to your needs and without any obligation.

How long will it take to customize your bottles?

- The delivery time of an order depends on the number of units requested and our workload but, normally, it takes a maximum of 15 days to serve an order, counting from the moment we receive the payment in advance and the properly adapted design.
