

Guide to customize bottles by Sublimation

Bottles customization by Sublimation

With this guide we intend to show you all the possibilities offered by our bottles customization by Sublimation system, so that you can place your order easily and comfortably.

When do we use Sublimation to customize bottles?

- When the design includes photographs, many different colors or color gradients.
- When the order is at least 54 units.

Choose the type of bottle

Aluminum Bottles

 Very lights

Stainless Steel Basic Bottles

 Very lights

 Resistant

Stainless Steel Insulated Basic Bottles

 Keep cold and warm

 Do not burn

 Do not sweat

 Resistant

No harmful substances

Do not leave smell or flavour

Reusable and recyclable

Tight closure

Choose the capacity and color of your bottles

Capacities

Colours

Mouths and caps

How to adapt the design of your bottle?

- Once you have chosen your bottle, adapt the design to the size of the corresponding template (you will find the templates in the attached document "Sublimation Templates").
- Once the design has been adapted to the template, send it to us with the highest possible quality in a jpg, pdf or illustrator file.

How much will your bottles cost?

The price of the bottles depends on the model chosen as well as the quantity of the order. That's why we offer you a budget adjusted to your needs and without any obligation.

How long will it take to customize your bottles?

- The delivery time of an order depends on the number of units requested and our workload but, normally, it takes a maximum of 15 days to serve an order, counting from the moment we receive the payment in advance and the properly adapted design.

How to place an order?

- Request the Sublimation Order form to our Customer Service and complete it indicating all the chosen options.
 - Send it to us together with the adapted design as specified in point 5.
- Once we receive your order, we will send you a budget adjusted to the chosen options. After your confirmation, we will send you an invoice, so you can make the payment. Then, we will start producing your bottles.
