

QUALITY AND ENVIRONMENTAL POLICY

PRODUCTOS DEPORTIVOS, S.A., whose activity is the "design, production and commercialization of metal articles for sports, camping and outdoor activities", assumes the **PRINCIPLES** that make up its **QUALITY AND ENVIRONMENTAL POLICY**, concreted as follows:

- 1- Satisfy our customer expectations, that is to say being able to offer, in compliance with environmental and safety needs, products and services with outstanding technical and quality characteristics.
- 2- Protect the Environment.

In addition, the Organization undertakes to make the above claim compatible with the prevention of environmental pollution, not only by complying with the laws and regulations in force, but also by expanding its requirements when it is considered fundamental to the natural environment. This implies establishing lines of action with specific objectives and goals that ensure continuous improvement:

- Design, production and commercialization of metal articles for sports, camping and outdoor activities capable of satisfying the customer's requirements and the legal requirements applicable to the Organization.
- To use in all our processes the most appropriate practices and technologies to prevent, reduce and as far as possible eliminate disturbances of any nature that may affect the environment, thus committing ourselves to prevent pollution.
- To ensure that our services cover and comply with all applicable environmental legal requirements and other requirements that the Organization voluntarily subscribes to.
- It provides a frame of reference for establishing quality objectives and environmental objectives and targets.
- Continuously improve the integrated management system.
- Improve the environmental performance of the Organization and thus reduce pollution.

PRODUCTOS DEPORTIVOS S.A. makes this Quality and Environment Policy available to the public and all interested parties.
